

Quality Policy

Cherry Pipes Limited is committed to serving the needs of our customers by providing products that are fit for their intended use are supplied on time and priced to provide superior value.

It is the established policy of the company to operate a Quality System to meet the requirements of BS EN ISO 9001:2008

Our Quality Policy is geared towards meeting our customers' expectations in full.

While meeting this primary policy objective, we will endeavour also to control and where possible improve our processes in order to ensure that operations are conducted economically and effectively.

Our Policy is the result of a Planning Process that will result in the establishing of a set of Objectives intended to deliver our Business policy to Customers and employees. These Objectives will be agreed with those tasked with delivering them, and will have associated programmes for their delivery. We will review periodically how well our programmes are being delivered, and shall modify our Objectives and Policy where required.

We shall provide and manage resources necessary to deliver Objectives, and to provide safe and suitable conditions for all our employees and for the members of the public directly affected by our operations.

We shall use monitoring and measuring techniques to assess on an ongoing basis, how the services we provide meet the expectations of our customers, also how well our own internal processes are operating. This information will be analysed and used to continually improve the business where possible.

We shall make this Policy and the resultant Objectives known to our employees and will demonstrate our belief in it through our own personal commitment and involvement.
